Here at **JAS Productions** we welcome you to our first newsletter of the year 2008 which we believe will be a packed year for us all! For an update of what's been happening with us and previews of forthcoming events, read on...

James Anthony - The Journey, Vol 1

The highly anticipated gospel album from 'James Anthony' titled 'The Journey, Vol One' which features the 'Melek Gospel Choir' is finally completed! More exclusive details will be announced shortly via our regular newsletters.

The album's 13 songs display combinations of lyrical, vocal and melodic scripture based messages, that will collectively engage the listener into many facets of their life long journey for God's purpose.

Very positive feedback has been received from those who've had a preview, descriptions such as "awesome" and "powerful" have been used to describe the album. Comments also include popular and respected church Pastors stating that "I love that it ministers to a wide variety of people; not just the gospel community but also to a non-Christian audience". James says "my life, your life, the journey".
